

**ATTN: MIMAKI USA. INC.**

**Investigation report on chemical substances in the raw materials of our products**

We hereby certify the presence or absence of chemical substances in the raw materials of our products listed under 1.Products below.

Please be notified that we evaluated the raw materials of the products to determine the presence of the substances specified under 2.Object Substances below. We did not measure or analyze the final products themselves.

1. Products

UV ink LH-100 series (Cyan, Magenta, Yellow, Black, Light Cyan, Light Magenta, White, Clear)

2. Object Substances

- VOC (WHO defines "organic compound having a boiling point of 50 °C ~260 °C")

3. Report

Table 1 shows the VOC content in the product listed under 1.Products above.

\*Note

When adopting the definition of VOC specified by WHO, the content based on that definition will be larger than the value listed in Table 1.

However, we consider VOC as the substance that is expected to be volatilized at actual printing, among substances that fall under the definition, so we report it in Table 1.

In addition, the VOCs listed in Table 1 are contained as impurities in the ink and are not intentionally added as constituents.

**Investigation report on chemical substances in the raw materials of our products**

We hereby certify the presence or absence of chemical substances in the raw materials of our products listed under 1.Products below.

Please be notified that we evaluated the raw materials of the products to determine the presence of the substances specified under 2.Object Substances below. We did not measure or analyze the final products themselves.

**1. Products**

UV ink LH-100 series (Cyan, Magenta, Yellow, Black, Light Cyan, Light Magenta, White, Clear)

**2. Object Substances**

- Substances are listed in "Proposition 65 (Mar.19, 2021)".

**3. Report**

In our evaluation, among all substances specified under 2.Object Substances above, only the substance listed in Table 1 is found in the product. We certify that we did not find the other substances in the raw materials of the product listed under 1.Products above.

And we do not have clear evidence that the substances listed in Table 1 are not exposed to workers beyond the Safe Harbor Level at the time of work.

Therefore, the product listed under 1.Products above are considered to be products that require "clear and reasonable warning" in Proposition 65.

## Declaration on chemical substances in the raw materials of the ink

We declare that the raw materials of our ink do not use intentionally and do not contain more than threshold value of the RoHS 10 substances listed in Table 1 below, specified in DIRECTIVE (EU) 2015/863 of June 2015.

For your information, we evaluate the substances by the presence or absence in the raw materials of the inks and do not measure or analyze the final product.

### 1. Products

All of the ink manufactured by MIMAKI ENGINEERING CO., LTD.

(Products include primer and washing liquid, target is limited to stock solution.)

### 2. Object Substances

Table 1 RoHS 10 substances

No.	Substance	Threshold value
1	Cadmium and its compounds	100ppm
2	Hexavalent chromium compounds	1000ppm
3	Lead and its compounds	1000ppm
4	Mercury and its compounds	1000ppm
5	Polybrominated biphenyls (PBBs)	1000ppm
6	Polybrominated diphenyl ethers (PBDEs)	1000ppm
7	Bis (2-ethylhexyl) phthalate (DEHP)	1000ppm
8	Butyl benzyl phthalate (BBP)	1000ppm
9	Dibutyl phthalate (DBP)	1000ppm
10	Diisobutyl phthalate (DIBP)	1000ppm
